## ***Calling People Living with Type 2 Diabetes who have missing teeth!***

Would you like to share your views about gum disease and options for replacing missing teeth?

This would mean joining a focus group (1.5 hours) either online or in-person at the Dental School in Whitechapel, London to talk about:

1. What you know about gum diseases
2. How you feel about your teeth and mouth
3. What options you would like to replace any missing teeth
4. Your past experiences of dental treatment

You will receive payment (£25 per hour) for taking part plus extra to cover travel costs and your time completing a short online survey before the focus group

**Please complete short questionnaire by following this QR code or go to: <https://shorturl.at/myTYZ>**
